

MEMORANDUM FOR: Colonel James H. Macia, Jr.  
Deputy Chief, Collection Operations Division  
Director of Collection and Dissemination  
Assistant Chief of Staff, Intelligence  
Department of the Air Force

25X1X4

SUBJECT: ACIC Support to [REDACTED]  
(Target Chart - Series 25)

1. You may be aware of a mid-December meeting between Colonels Eldridge and Caldwell, Lt. Colonel Bailey, and Mr. Canfield of APCIN-3, and [REDACTED] of this Office. The meeting 25X1A9a  
25X1A9a resulted from a visit by [REDACTED] to ACIC earlier in the month at  
25X1X4 [REDACTED] with certain "by-products" of their 25X1X4  
present Target Program which would be of value in preparing base  
maps for the town plan series. [REDACTED] 25X1X4  
25X1X4 [REDACTED] of my  
cartographic office met a few days ago with Messrs. Ledet and Canfield  
of APCIN-3 for further discussion regarding the support ACIC might  
give [REDACTED] 25X1X4

2. As a result of this discussion, my people now suggest two plans for your consideration.

a. The Production and Distribution Plant, ACIC, to supply duplicate reproduction materials on a stable base for each separation plate except the red overlay. [REDACTED] 25X1X4  
25X1X7 [REDACTED] This plan would require no alteration to the present compilation and drafting phases of the Target Chart - Series 25.

b. If acceptable to the Air Force, an addition to plan "a" (above) consisting of the inclusion of one or more of the following:

- (1) Street names and outlying suburban center or village names.

- (2) Parks and other open areas within the built-up area of the city.
- (3) Tram lines.
- (4) Cemeteries.
- (5) Minimum coverage of other cultural features such as public buildings, etc. that would assist in orienting a traveler.

These additions to the present Target Chart - Series 25 could be drafted on the available plates or on supplementary plates whichever proved more efficient to the Plant.

3. The attached plan of Archangel [REDACTED] constitutes a "minimum" treatment. It illustrates, however, the use to which the reproduction materials (with suggested additions) would be put if made available. 25X1X4

25X1X41 4. Your assistance in investigating the possibility of such support to [REDACTED] would be greatly appreciated. If you concur in the feasibility of either of the above suggestions, I would be pleased to send appropriate officers to discuss the specific details and to submit at the same time the list of cities that are scheduled for coverage [REDACTED] in order that the current town plan requirements, in terms of coverage and timing, can be considered. 25X1X4□
